CAST Photocells (CTPC, E1CTPC, CTRPC)

Product Information

CAST Photocells - Day/Night Sensored for Automatic ON/OFF

Description:

When a CAST Photocell is plugged into your transformer, it will turn on at dusk and off at day-break. With the addition of a time clock, this on/off cycle can be modified so your lights will always turn on at dusk and turn off at a desired time at night, for example 11:00PM.

The CTRPC comes with a 15 foot lead wire for remote mounting when your transformer is installed where it is not exposed to natural daylight.

Features:

- Quick-Connect to transformer photo cell plug
- Locking ring and nut secures unit to knock out opening on transformer
- Adjustable knuckle for aiming
- 1/2" stem
- Lead wire: CTPC - 7 inches, CTRPC - 15 feet
- The CTRPC includes stainless steel mounting bracket and screws

Also available in 220/240V: E1CTPC
